

ShadowSentinel Collusion Dossier

Case ID: CC-0002 | Generated: 2026-08-25 15:59 | Format: arbitration-submission layout (not a certified VROL document)

1. Executive Summary

This dossier documents a suspected friendly-fraud collusion cluster of **5 orders** across **5 merchants** (M_ElectroHub, M_FashionNest, M_GadgetKart, M_HomeBazaar, M_TrendMart). The cluster was flagged by ShadowSentinel's graph detector with a risk score of **0.93** (flag threshold: 0.50).

Reasoning: 5/5 orders disputed as friendly-fraud; spans 5 merchants (M_ElectroHub, M_FashionNest, M_GadgetKart, M_HomeBazaar, M_TrendMart); 1 device fingerprint(s) across 5 orders; 1 VPA identity base(s), rotating handles

2. Risk Factor Breakdown

Factor	Score	Interpretation
Dispute fraction	1.00	Share of cluster orders disputed as "item not received"
Device fingerprint sharing	0.80	1.0 = all orders used the same device
UPI VPA rotation	0.80	1.0 = one identity rotating many VPA handles

Edge signals within this cluster's graph: vpa (10 links), geo (4 links), device (10 links)

3. Order-Level Evidence

Order ID	Merchant	Date	Amount (INR)	Dispute Reason
