

ShadowSentinel Collusion Dossier

Case ID: CC-0017 | Generated: 2026-08-25 15:59 | Format: arbitration-submission layout (not a certified VROL document)

1. Executive Summary

This dossier documents a suspected friendly-fraud collusion cluster of **8 orders** across **5 merchants** (M_ElectroHub, M_FashionNest, M_GadgetKart, M_HomeBazaar, M_TrendMart). The cluster was flagged by ShadowSentinel's graph detector with a risk score of **0.9375** (flag threshold: 0.50).

Reasoning: 8/8 orders disputed as friendly-fraud; spans 5 merchants (M_ElectroHub, M_FashionNest, M_GadgetKart, M_HomeBazaar, M_TrendMart); 1 device fingerprint(s) across 8 orders; 2 VPA identity base(s), rotating handles

2. Risk Factor Breakdown

Factor	Score	Interpretation
Dispute fraction	1.00	Share of cluster orders disputed as "item not received"
Device fingerprint sharing	0.88	1.0 = all orders used the same device
UPI VPA rotation	0.75	1.0 = one identity rotating many VPA handles

Edge signals within this cluster's graph: vpa (28 links), device (28 links), geo (11 links)
