Case ID: CC-0008 | Generated: 2026-08-25 15:59 | Format: arbitration-submission layout (not a certified VROL document)

1. Executive Summary

This dossier documents a suspected friendly-fraud collusion cluster of **7 orders** across **5 merchants** (M_ElectroHub, M_FashionNest, M_GadgetKart, M_HomeBazaar, M_TrendMart). The cluster was flagged by ShadowSentinel's graph detector with a risk score of **0.95** (flag threshold: 0.50).

Reasoning: 7/7 orders disputed as friendly-fraud; spans 5 merchants (M_ElectroHub, M_FashionNest, M_GadgetKart, M_HomeBazaar, M_TrendMart); 1 device fingerprint(s) across 7 orders; 1 VPA identity base(s), rotating handles

2. Risk Factor Breakdown

Factor	Score	Interpretation
Dispute fraction	1.00	Share of cluster orders disputed as "item not received"
Device fingerprint sharing	0.86	1.0 = all orders used the same device
UPI VPA rotation	0.86	1.0 = one identity rotating many VPA handles

Edge signals within this cluster's graph: vpa (21 links), device (21 links), geo (4 links)
